To Whom it May Concern

Dear Sir or Madam,

This is a testimonial for Sue Lindsay from Angelus Landscapes.

On moving to a property in central Nelson we decided that the garden needed to be modified to meet our family's needs. We contacted Sue and she made herself available to meet, view and discuss options for our garden.

A couple of weeks later Sue presented a comprehensive plan that we could understand. We discussed a number of aspects and confirmed the approach to be taken. Sue then coordinated contractors to complete some significant site work that involved heavy plant and the removal of significant amounts of soil.

Once the site was prepared Sue brought her own team to complete the landscaping and planting. We agreed on a change in plan that necessitated a significant stone wall project. Despite time constraints of the best stone mason available locally Sue was able to get the work done without putting the completion date at risk.

We now have a garden we love, that over the past few years has grown to exceed our high expectations when Sue designed it.

Sue is an excellent contractor, we felt that she became a partner in our project as she took as much pleasure in the final product as we did. We highly recommend Sue as a very talented designer, capable project manager and great plants person.

Yours faithfully,

Diane Trengrove
